

# What will *your* legacy be?

“In business we focus a lot on ‘adding value.’ When I reflect on value added to my life, it’s clear that the philosophies and practical concepts learned at Princeton guide and inform me every day. This founda-

tion for continual exploration is a tremendous personal and professional advantage. And of course I cherish the friendship of classmates and alumni.

Princeton opened doors and gave me the skills to walk through them. My bequest helps to ensure these opportunities are available for future students.”
